

IT TAKES TWO TO TALK™
The Hanen Program™ for Parents
of Children with Language Delays

It Takes Two to Talk™ (ITTT) is designed for parents of children **birth to five** who have language delays. This evidence-based program teaches parents practical and powerful strategies to help their young children communicate and interact during everyday routines and activities.

Parents, working with a certified ITTT Speech-Language Pathologist, will learn how to: let their child lead, follow their child's lead, take turns, keep the interaction going, and add language to the parent-child interaction. ITTT is an 8-session course which includes an easy to read parent guidebook, parent workbook, and DVD that instructs parents step-by-step through the program.
